

9 *Future Developments*

- 9.1 With the growing complexity of complaints against registered doctors, members of the public expect greater accountability and transparency in dealing with the complaints from the Council. Within the medical profession, there are also discussions on ethical issues and expression of concerns over the standard and quality of medical practice which requires the Council's attention. Having said that, the Council will continue to improve its services to meet the changing needs from both the members of the public and the profession.

- 9.2 With regard to the Reform of the Medical Council, reform proposals have been forwarded to the Administration for consideration. Amendments to the Medical Registration Ordinance and its subsidiary Regulations will have to be made to implement the reform proposals, if they are supported by the Administration.
